About CBM cafetería

We need to be there at 12:40pm

Price of menu is 6.95EUR. It includes two courses, dessert, bread, and beverage (bottle of water or soft drink):

- you may take just one course, but price is the same
- at the cashier's desk, there is cold tap water available. If you take tap water instead of the water/soft drink then they will provide a coupon for a free coffee after your meal.
- coffee is served at the bar (there is a separate line for that)

Alternatively they also serve sandwiches, etc at the bar directly, but they prepare these on the spot.
