

Light Dark World 2025

Wednesday 17 September 2025

Astrophysics (I) (16:30-17:50)

time	[id] title	presenter
16:30	[52] Overview of astrophysical constraints on light dark sectors	YUN, Seokhoon
17:00	[9] Core-collapse supernova explosions hindered by eV-mass sterile neutrinos	MORI, Kanji
17:25	[8] The CMZ anomalous Ionization rate explained by MeV DM	DE LA TORRE LUQUE, Pedro
